Avian Scientific Advisory Group

The U.S. Fish and Wildlife Service is partnering to rebuild the scrub jay population. The birds do best when there is contiguous scrubland that can support new populations. They need a clear view of danger from hawks above and snakes below.

Brevard Nature Alliance

The mission of the Brevard Nature Alliance is to build public awareness and appreciation of the value of Brevard County's natural resources by fostering and promoting ethical, nature-based tourism.

www.brevardnaturealliance.org

The **Environmentally Endangered Lands (EEL)** Program was established in 1990 to protect the natural habitats of Brevard County by acquiring environmentally sensitive lands for conservation, passive recreation, and environmental education.
