

Data for parrot reproduction through the years

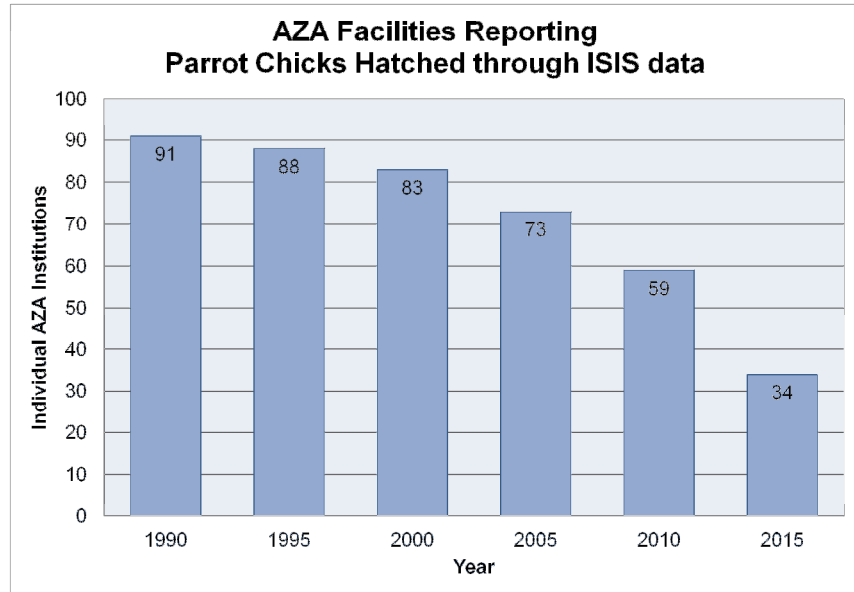

Joe Barkowski

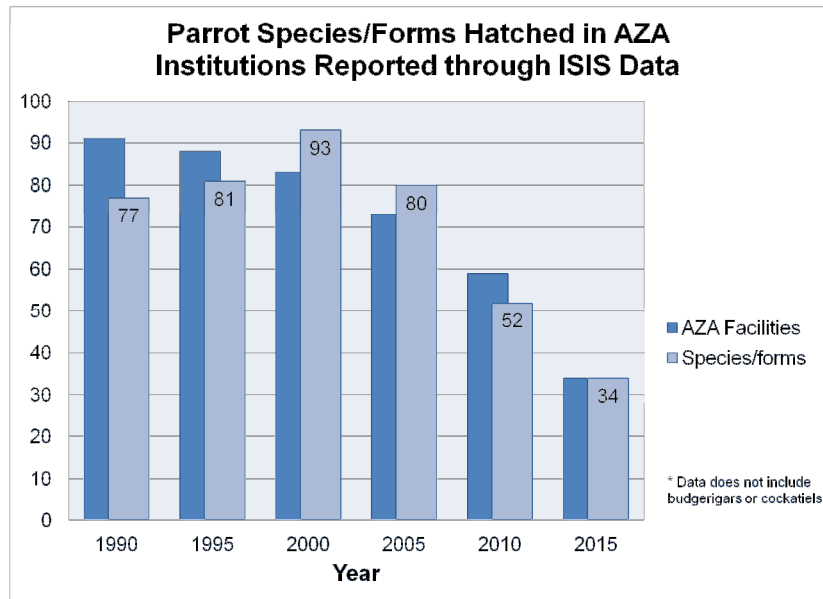

Chair – AZA Parrot TAG

JCBski@aol.com

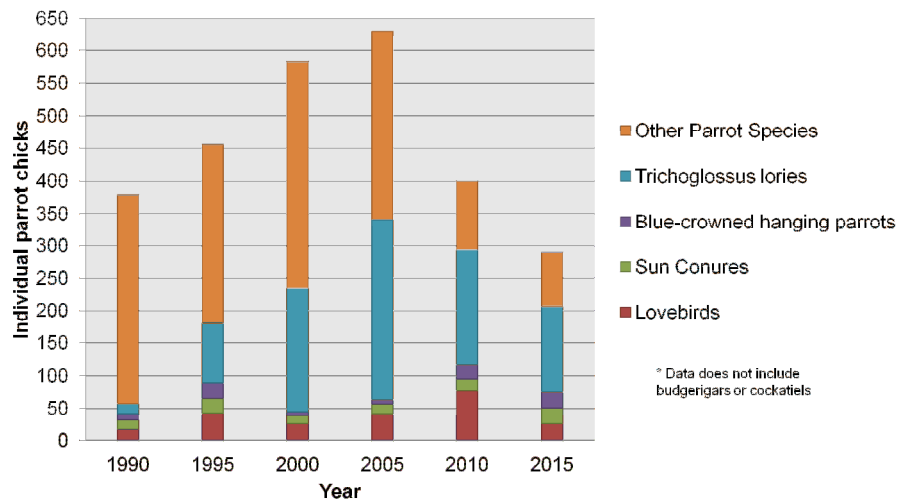

- Using data from ZIMS only
- Looking at AZA facilities at the time data was collected
- Completely unscientific evaluation...
- Mainly a tool to discuss the potential loss of experience more than the loss of species or space

**Individual Parrot Chicks Hatched
at AZA Facilities Reported through ISIS Data**

The future....

If we don't reinvigorate our interest in parrots and maintain our husbandry information, we won't have parrots in our collections for the future.
